Solucent Bright Solutions Offers

Solar Window Film, UV Heat Reduction, Window Frosting, Decorative, Security, Safety and Privacy Window Tinting in the Cape Town area and surrounds.

SOLAR WINDOW FILM

Solar window film is designed to let natural light in and keep harmful UV radiation and the intense glare and heat of the sun out. With solar window film, you can enjoy the benefits of unrestricted views without the loss of privacy, protect your furnishings, carpets and fabrics from fading and reduce your home's energy consumption.

FROSTED WINDOW FILM

Ideal for bathrooms, office doors and glass walls, dividers and partitions, frosted window film is a cost effective solution that provides privacy and reduces glare without sacrificing natural light. Particularly effective for increasing safety in your home or business, frosted window film ensures glass is seen before it is felt.

DECORATIVE WINDOW FILM

Add a touch of elegance to your home or office space with decorative window film. Available in a range of colours, patterns and designs, decorative window film allows you to add a personal touch to your home or office space. Limited only by your imagination, decorative window film can be applied to bathrooms, office doors and glass walls, dividers or partitions and a feature door or window.

SECURITY WINDOW FILM

Safety and security window film increase the strength of glass and will hold broken glass together after impact. Burglars often gain access to a property through a glass window, door or door panel, glass safety film and glass protective films help prevent access to your property by reinforcing the glass.

CAPE TOWN'S WINDOW FILM SOLUTION

HIGH QUALITY WINDOW FILM SOLUTIONS FOR HOMES & BUSINESSES

Solar Window Film helps to reduce sun damage and fading to carpets, upholstery and interior furnishing.

Decorative, Frosted, Solar and Safety Window film can provide privacy and security.

Solar Window Film saves money on energy bills by lowering the strain on heating systems in winter and cooling systems in summer.

Safety and Security Window Film prevents glass from shattering.

QUALITY WINDOW TINTING & PROFESSIONAL INSTALLATIONS

Solucent specializes in the supply and installation of a wide range of high quality window film and window tint products for commercial and residential customers in and around the Cape Town area. We pride ourselves on our ability to install quality custom window film solutions with flair and creativity. Solucent is passionate and able to assist with large and small projects. Solucent's friendly and qualified staff will ensure that the project is completed successfully and keep you up to date whilst we do so.
